John Burvainis
Acting Director
Public Service Commission
P.O. Box 94927
Lincoln, NE 68509-4927

Dear Mr. Burvainis:

I believe it's appropriate to bring to your attention the sincere necessity of allowing the Nebraska Resources Company, which is wholly owned by Seminole Energy Services, the opportunity to construct the new pipeline across Nebraska.

We are in the process of building three ethanol plants in Nebraska, with the first one being in Bradshaw, NE. Kinder Morgan has indicated that they cannot provide the necessary natural gas for these plants. In fact, Kinder Morgan is considering building a new pipeline, but requested we give them a Letter of Credit, in the amount of \$5 million dollars.

Nebraska Resources Company has provided Northern Utilities, LLC the opportunity of purchasing natural gas from their proposed new pipeline. Their conscientious devotion to duty, dependability and cooperative attitude will definitely contribute to their efficient manner in which they will construct the new pipeline.

The State of Nebraska, the ethanol plants, biofuels and all other industries definitely need a second and reliable source of natural gas. Everyone served by the pipeline will benefit from a reliable and cost effective new source of natural gas.

We respectfully request your assistance and cooperation in providing Nebraska Resources Company the opportunity of constructing the new pipeline.

If you have any questions or concerns, please feel free to contact us.

Sincerely,

Trent P. Anderson
Managing Member
